Internal Hard Drives Product Highlights

Deskstar™ 7K3000
Enormous capacity and exceptional performance for desktop computing

The Deskstar 7K3000 is Hitachi's first hard drive to deliver an enormous three terabytes of storage capacity and 7200 RPM performance in a standard 3.5-inch form factor. The 7K3000 is also the first Hitachi hard drive with a 6Gb/s SATA interface, which along with its 64MB cache buffer delivers a big boost to performance over the previous generation product.
Capacities also available in 2TB and 1.5TB)

Deskstar 5K3000
Energy-efficient, cool, quiet PC storage with enormous capacity

The Deskstar 5K3000 hard drive provides an enormous 3TB capacity and features innovative CoolSpin technology to deliver a greater level of power efficiency and quiet operation for energy-conscious, environmentally friendly computers.

Travelstar™ 7K750
High-performance, high-capacity mobile storage for notebook PCs and other applications.

Travelstar 7K750 is a 7200 RPM, 375GB/platter, 2.5-inch hard drive with capacities of 500GB, 640GB and 750GB. This standard 9.5mm, two-disk design, intended for use in notebook PCs, external storage and other mobile applications, uses the industry's new Advanced Format.

Travelstar Z5K500
Slim, high-capacity storage for notebook PCs and mobile applications

Travelstar Z5K500 is the second generation 7mm, 5400 RPM 2.5-inch hard drive from Hitachi, with capacities ranging from 250GB to 500GB and the second generation Advanced Format drive.

CinemaStar™ 7K1000.C
Power-efficient, high capacity storage optimized for digital video applications

Hitachi delivers its third-generation 1TB CinemaStar drive with best-in-class power management and proven features, like silent-seek acoustics and streaming video, to improve handling of multiple, simultaneous video streams, typical of surveillance applications.

CinemaStar 5K2000
Cool, quiet, energy-efficient digital video storage with 24x7 availability

CinemaStar 5K2000 hard drive provides a generous 2TB of capacity and features innovative CoolSpin technology to deliver a new level of power efficiency and quiet operation for digital video applications.

Ultrastar™ C10K600
Industry-leading power and performance for the Enterprise

Ultrastar C10K600 is a 2.5-inch 10,000 RPM hard drive that leads the industry with 18% faster sequential and up to 15% random performance than the nearest competitor.

Ultrastar 15K600
The all-in-one enterprise drive delivers performance and capacity in one package

Combines ultimate performance with high capacity in the same drive. The 6Gb/s Serial Attached SCSI (SAS) and 4Gb/s Fibre Channel Arbitrated Loop (FCAL) interfaces support the reliability required in the most demanding enterprise computing environments.

Ultrastar 7K3000
Hitachi raises the bar for enterprise-class capacity-optimized drives

Hitachi is consistently ranked top in product quality and reliability by OEMs around the world, and we're proving it by raising our new Hitachi Ultrastar 7K3000 drives to 2.0 million hours MTBF -- the highest in the industry for a 7,200 RPM enterprise-class drive.

Preparing for the Big 3TB

Introduction of High-Capacity Hard Drives

While manufacturers begin introducing the latest generation of high-capacity drives, the industry has been working to resolve known capacity addressing limitations that date back to original design of the PC. These limitations are caused by 32-bit definitions used for sector size and logical block addresses (LBA)[1].

Now that hard drives with capacities greater than or equal to (≥) 2.2 terabytes are available, users will need to implement a combination of operating systems, BIOS, drive partition tables, and HDD drivers that support >2.2TB in order to gain trouble-free access to the higher capacities offered. When working in legacy environments, more effort will be required to ensure that all components are capable of supporting high-capacity drives.

High-Capacity-Aware Operating Systems Summary

The following table is a summary of operating systems support for high-capacity hard drives. All configurations assume that partitioning is done using GPT partition tables (rather than MBR)

Operating System	3TB as Boot Disk	3TB as Data Disk
Microsoft Windows XP (x32)	No	No
Microsoft Windows Vista SP1 or later x32	No	Yes
Microsoft Windows Vista SP1 or later x64	Yes, with EFI	Yes
Microsoft Windows 7 (x32)	No	Yes
Microsoft Windows 7 (x64)	Yes, with EFI	Yes
Intel-based Mac OS X 10.6+	Yes	Yes
Linux UBUNTU 8.04+/SUSE x32, x64	Yes	Yes

[1] 32 bit limitation: 512 byte sectors x 2^32 bits = 2.199 TB

External Hard Drives Product Highlights

LifeStudio™ Mobile PLUS
The Portable assistant for your digital life.

Streamline, share, store, and go with LifeStudio Mobile Plus. The Stunning 3D interface seamlessly pulls together your photos, music, movies, and documents, and the intergrated smart USB key with auto-synch keeps you on the go with up to 4GB of exactly what you need, when you need it.

LifeStudio Mobile
The portal to your digital life.

Rediscover your life's greatest moments with LifeStudio Mobile. Reliable local and online backup provide two levels of integrated protection to help keep your digital life safe and sound.

LifeStudio Desk PLUS
The Personal assitant for your digital life

The LifeStudio™ Desk Plus external drive offers plenty of capacity to easily find, automatically organise, share and protect your digital content, plus experience ultimate flexibility on-the-go with included USB key.

LifeStudio Desk
The portal to your digital life.

The LifeStudio™ Desk external drive gives you plenty of capacity to easily find, automatically organise, share and protect all your digital content.

Touro Desk
Solid storage, big capacities.

Simple storage expansion suited for all your photos, movies and documents, Touro Desk offers solid storage for all your important stuff. Effortless plug and play, with all the quality and reliability you expect from Hitachi.

Touro Mobile
Ready to go when you are.

Take all your files with you, with portable storage that fits well into your purse or briefcase. Plug and play simplicity powered by USB, which means there is no power cord to tie you down.

Touro Pro Desk
Two layers of backup, one great drive.

With not just one, but two layers of protection, Touro Pro Desk comes with local and 3 GB of cloud backup providing a great way to safeguard your files. Enjoy fast USB 3.0 transfer speeds and fast 7200 RPM performance to boot!

Touro Pro Mobile
Good things come in small packages.

Touro Pro Mobile not only fits in your pocket, it also comes with local and 3 GB of cloud backup. It's not only a great way to safeguard your files; it's also fast with USB 3.0 and fast 7200 RPM performance.

G-Technology by Hitachi
Performance. Style. Reliability.

G-Technology manufactures premium, high-quality external storage devices designed for professional content creators and Mac enthusiasts. Our products meet and exceed the demands and rigors of professional audio/ video editing and image production applications.
